# ACKNOWLEDGEMENT

I would like to acknowledge all those who have given moral support and helped in making the project a success.

I wish to express my gratitude to the e-Projects Team at the Head Office, who guided and helped me. I would also like to express my gratitude to all the staff members of my center for not only providing me with the opportunity to work with them on this project, but also for their support and encouragement throughout the process.

I also express my sincere gratitude to the e-Projects Team at the Aptech Head Office and my project guide at the organization, for her valuable guidance and support for the completion of this project.

And finally, I would like to offer many thanks to all my colleagues for their valuable suggestions and constructive feedback.

## **SYNOPSIS**

Nexus Aquarium is one of the famous aquarium in the town since 2000, now the aquarium organization wish to change their existing website completely. The website which they demand is suppose to provide user friendly environment and navigation.

The important menu must be stated in the top section of the webpage. Also a decent look out and color combination is expected.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox..

# REVIEW 1

## **I. REQUIREMENT SPECIFICATION.**

**The Web site is to be created based on the following requirements.**

- 1/ The Home page must have well defined logo and image of the sea creatures.
- 2/ Apart from home link, other links such as gallery section, certain information about animals (marine life animals) they have.
- 3/ Contact details must be added. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps) and the email address which when clicked will invoke the local mail client from where they can send an email.
- 4/ Events (separately for children) must be stated in the website with the proper schedule and details.
- 5/ Online booking of event (Dummy page where information must be entered, and validation checking must be done)
- 6/ Timing and location must be stated in the website. Location should be displayed using GeoLocation API (eg. GoogleMaps)
- 7/ Images of the aquarium location (site seeing must be included)
- 8/ Navigation must be maintained smooth.
- 9/ Color combination must be precise and uniformity must be maintained.
- 10/ Categorization of the marine life animals and there different species information should be shown in tabular form.
- 11/ Feedback form (dummy) should be provided.

## **II. PROBLEM DEFINITION**

- Galerypage can displayed about 40-80 marine animals.
- Information displayed about each marine animal:
  - + Name.
  - + Size.
  - + Life area.
- The users can feedback about quality service.
- The users can able to question about Nexus Aquarium.

## **III. CUSTOMERS REQUIREMENT SPECIFICATIONS (CRS)**

### **a. Client: Nexus Aquarium WebSite Online**

All

### **b. Business/Project Objectives:**

It is the big centre for organizing the school events for the purpose of study and so on.

### **c. Inputs provided by clients:**

- Buy ticket.
- Booking tours.
- Feedback service.

### **d. Hardware Requirement:**

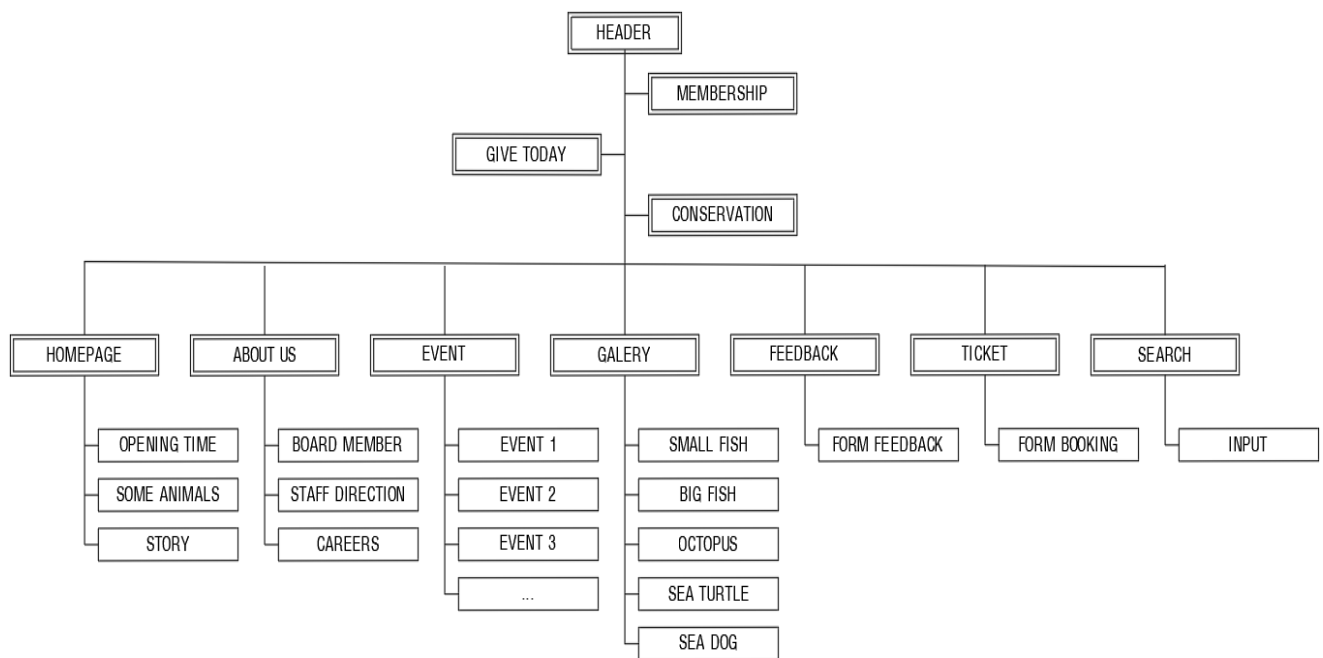

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

### **e. Software Requirements:**

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

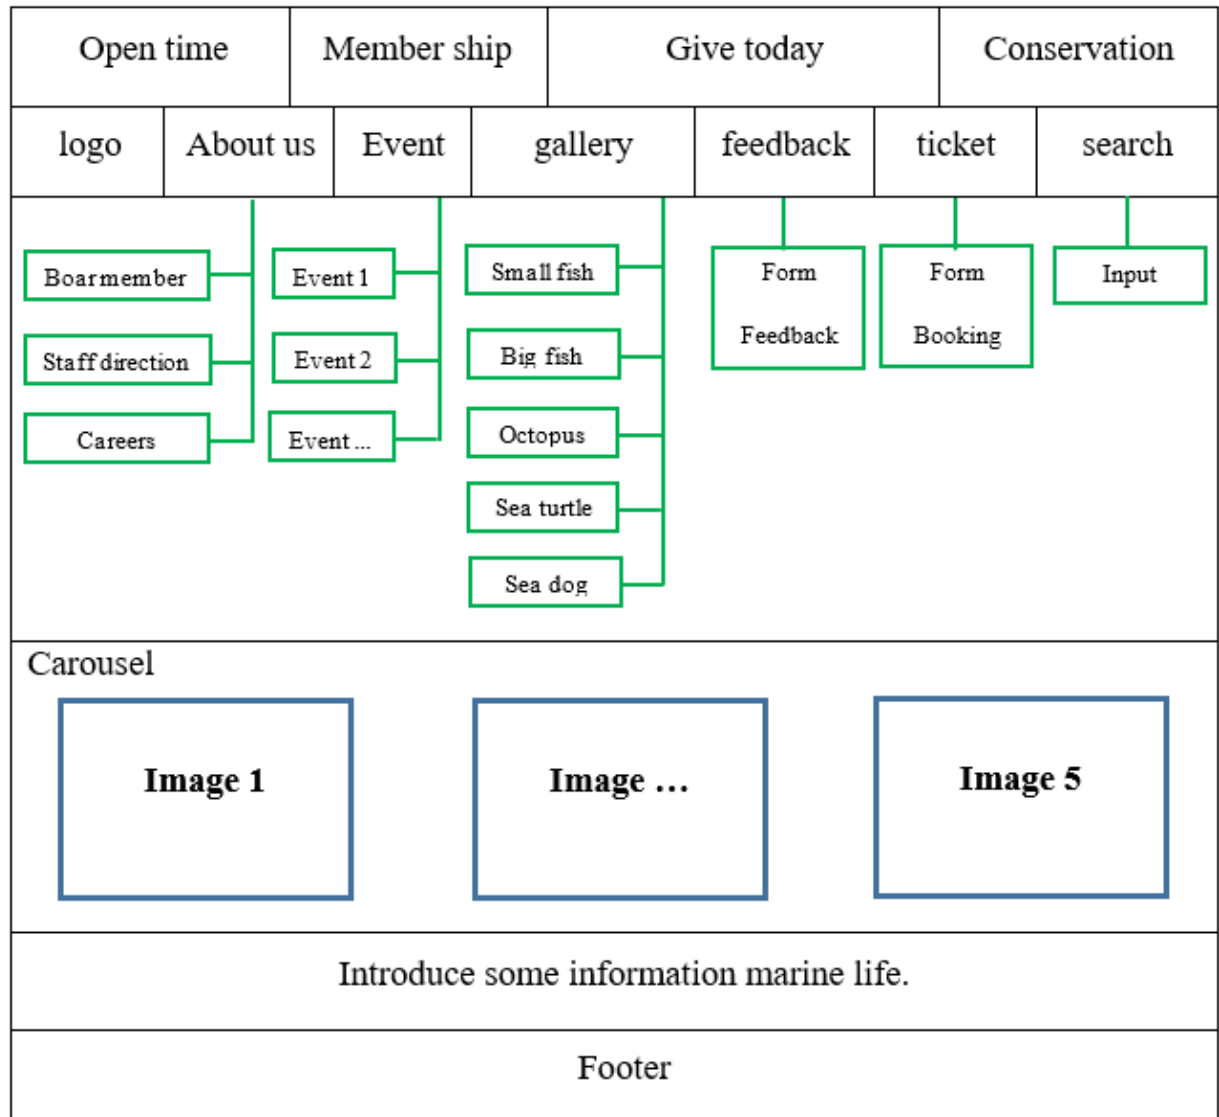

## IV. SITEMAP

- Here are our layouts which will show you how we brainstormed ideas for the aquarium's web pages. Because of being academic website, we tried to build them **SIMPLE** but **USEFUL** and **INFORMATIVE** as much as possible.

- The website is going to have several pages which include different information in the same main layout.

### c. Feedback page.

The feedback form is set against a dark blue background featuring a faint, artistic illustration of a jellyfish. The form is titled "Feedback" in a light blue font at the top center. Below the title, a small instruction reads "Please write your feedback below". The first question is "How do you rate your overall experience?", followed by three radio button options: "Bad", "Average", and "Good". The form then has four input fields: "Full name:", "Email:", "Age:", and "Phone number:". Below these is a larger "Message:" text area. A "Submit" button is located at the bottom right of the form.

**Feedback**

Please write your feedback below

#### d. Ticket page.

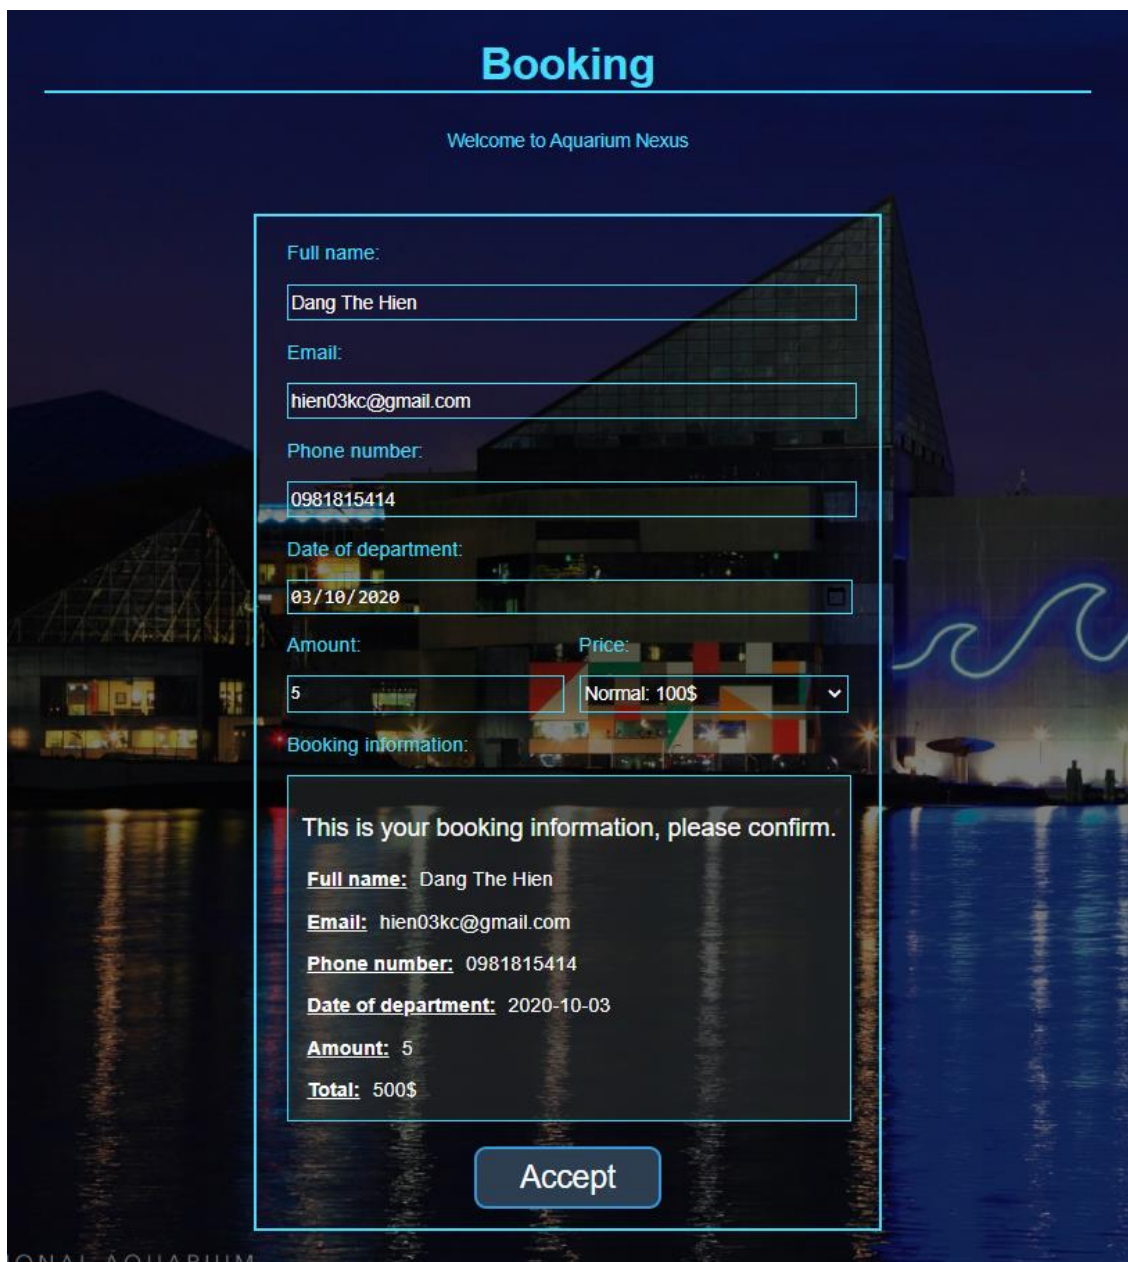

You can booking online here.

The image shows a web-based booking interface for 'Aquarium Nexus'. The background is a dark, nighttime photograph of a modern building with a glass facade, reflected in water. The interface is centered and features a dark blue header with the word 'Booking' in white. Below the header, a white 'Welcome to Aquarium Nexus' message is displayed. The main form area is a white box with a thin blue border. It contains several input fields: 'Full name:' with a placeholder 'Input word only...', 'Email:' with a placeholder 'Input your email: xxxx@xxx.xxx', 'Phone number:' with a placeholder 'Input number only...', and 'Date of department:' with a placeholder 'dd/mm/yyyy'. Below these is a section for 'Amount:' and 'Price:', each with its own input field. The 'Amount:' field has a placeholder 'Input number only...', and the 'Price:' field has a dropdown menu labeled 'Select price:'. At the bottom of the form is a section titled 'Booking information:' which contains a summary of the entered details: 'This is your booking information, please confirm.' followed by 'Full name:', 'Email:', 'Phone number:', 'Date of department:', 'Amount:', and 'Total:'. A large blue 'Accept' button is positioned at the bottom right of the form.

This is the booking interface

After you enter your information, we will inform you about the ticket you have just booked for your consideration before confirming.

The image shows a booking form titled "Booking" with a subtitle "Welcome to Aquarium Nexus". The form is set against a background image of a modern building at night with a glass facade, reflected in water. The form fields are: "Full name:" with the value "Dang The Hien"; "Email:" with the value "hien03kc@gmail.com"; "Phone number:" with the value "0981815414"; "Date of department:" with the value "03/10/2020"; "Amount:" with a dropdown menu showing "5"; and "Price:" with a dropdown menu showing "Normal: 100\$". Below these fields is a section titled "Booking information:" which contains a summary of the booking details. At the bottom of the form is a blue button labeled "Accept".
